

MEASLES & RUBELLA CAMP – COMPULSORY VACCINATION

Dear Parents

A nation wide campaign for MR (Measles & Rubella) will be conducted in the school campus on 1st May 2018 (Tuesday). This initiative has been taken to wipe out the two viruses by **NTAGI(The National Technical Advisory Group on Immunization)** targeting children aged from 9 months to 15 years **irrespective of the previous vaccination status.**

Most measles and rubella related deaths are caused by serious complications including blindness, encephalitis, severe diarrhoea and dehydration and dehydration, ear infections, respiratory infections etc. These diseases can be very well prevented by immunization with this highly efficacious and cost-effective MR Vaccine.

Parents must note the following regarding MR Vaccine:

- 1) This vaccination is 100% safe.
- 2) A new AD syringe for every child will be used. The mechanism of AD syringe is such that it cannot be used for the second time.
- 3) Your ward must have a heavy meal in the morning on the day of vaccination.
- 4) Severely ill children will not be vaccinated. If your child is ill on the day of administration of the vaccine, he/she will be administered after a follow-up session.
- 5) The process of the vaccination in school is as per the following plan:
 - From Class to Vaccination Room
 - From Vaccination Room to Observation Room (30 Minutes). The students will be escorted by a teacher under the supervision of medical experts.

Kindly give your consent by filling the form which is given below. Your co-operation in this regard is highly solicited to make this campaign a grand success.

Principal

CONSENT FORM
